# TOASTER BOT

Toast Masters Simulation Bot

PUBLIC SPEAKING

UH  LIKE

TJ bot will simulate Toast Masters that can run anywhere, so that anyone could strive to perfect their presentation skills.

# Hesitation Recipe

```
30
31 // Setting up variables
32 let recording = false;
33 let name = tj.configuration.robot.name.toLowerCase()
34 let start = name + " start recording"
35 let stop = name + " stop recording"
36 let stopped = name + " stopped recording"
37 let transcript = 'transcript.txt'
38
```

```
38
39 // creates transcript file and replaces the existing one
40 fs.open(transcript, 'w+', function(err) {
41     if (err) {
42         throw "could not open file: " + err
43     }
44 });
45
```

```
45
46 // Main listening callback function
47 tj.listen(function(input) {
48     input = input.toLowerCase()
49     if (recording) {

info: Hello from TJBot! My name is Watson.
verbose: TJBot library version v1.5.1
Hello. I'm the ToastMasters Bot. If you'd like to practice presenting, I can give you some feedback.
Try saying, "Watson, start recording" or "Watson, stop recording"
verbose: TJBot initializing microphone

- Monitor
- Raspberry pi
- HDMI>VGA
- 2-way mirror

**Features:**

- Affirmation quote
- Daily weather
- Calendar events

# Botty Builders Project Timeline

# Future Features

- Customizable Widgets
- Timing Capabilities
- User Personalization
- Alexa/Google/Siri Assistant
- Fully Integrated Mirror

THEME	CRITERIA	DESCRIPTION	SCORE
Idea	Innovation	How creative or innovative is the idea behind the solution?	10
	Value	How relevant is the solution to a real market or business problem?	10
Solution	Application of new skills	How well did the team incorporate or apply technical skills learned during their training?	10
	Feasibility	Does it actually work? Could this scale as a real solution with multiple users?	10
Delivery	Teaming	Did every team member have a roll?	10
	Quality	How was the overall presentation and delivery ?	10
Overall Showcase			60
